**Table base**

**Description**

Robust steel table base with 6 table-legs made from 8mm steel. Each table-leg is equipped with a levelling feet providing the opportunity to adjust floor deviations of up to 50mm at place of use. Cross beams are mounted at the lower third of the table-legs to achive optimal stiffness of the table system. The cross beams are designed also to carry a storage bottom as well as other storage facilities on request. The table legs covering a square of (1240x740)mm (size M) or (2240x1040)mm (size L) providing an optimal foot space for the operator at the working place. All parts of the table base are longlife coated in black RAL9008 (Powder or KTL).

**Upper rails**

**Description**

The upper rails in standard are made from full steel 10mm. At the rails 3 bores are prepared for mounting of own plates or systems. On request the upper rails can be manufactured in customized versions in order also to adapt special equipments or on top systems. Parts are longlife coated in black RAL9008 (Powder or KTL).
