## Accessories of special worktable of hole system Ø 28

# TEMPUTEC

### Ontop clamps Ø28

Multifunctional on top clamps Ø28 in different versions for universal application at Temputec special worktables SST and SWT. Remarkable for on top clamps is that the bar just stick in the table plate, instead being plugged through the plate. Height adjustment is made by sliding up or down the clamping arm at the main bar which is standing upright on top of the table plate.

#### Examples of use:

**Metal works** – At 3D-Welding table for clamping single pieces to welding constructions

**Woodworks** – Clamping of wood constructions for gluing

**Machine building** – clamp items during treatment on special worktables

**Toolshop or Repair** – Securing of toolparts before treatment or transportation within shop

**Gen. Industrie** - Hold all kind of small fixtures or secure items in Maintenance during treatment
